Banner Health's Return to Work Table of Contents

- 1) Best Practices
- 2) Solutions
- 3) Testing Options
- 4) Bundled Options

Banner Health's Return To Work... Best Practices

Worksites

- Maintain six-foot distancing, when possible, and discourage shared spaces
- Frequently sanitize all high-touch areas and common spaces
- Avoid gatherings of more than 10 people
- Implement symptom-monitoring protocols including temperature-checks
- Provide appropriate protective gear
- Provide flexible or remote scheduling and encourage remote work when possible

Employees

- Employees showing signs or symptoms of illness, or who have had contact with a known positive case of COVID-19, should stay home
- Frequent and thorough hand-washing
- Frequent sanitation and cleaning of workspace
- Wear a cloth face mask while at work

* Please note all best practices, recommendations, and services included hereafter have been developed to be in full compliance with CDC guidelines (as of 6/5/20); and are subject to change based on CDC guidelines.

Banner Employer Solutions Seeks to

Bring the access and delivery of healthcare to the employee and their family, making healthcare easy and affordable; delivering a healthier and more productive workforce to employers, through quality, collaboration, and efficiency.

Banner's Return to Work...Solutions

A board certified and experienced occupational health physician will walk through your workplace and make suggestions as to how to make them safe for your employees to return to work.

After a discussion with our experts, Banner will conduct appropriate COVID-19 testing for your workforce, either on-site or at one of our locations. Banner offers both a Nasal Swab PCR test or IgG Antibody Test.

In consultation with one of our board certified and experienced occupational health physicians Banner will work with you to develop workplace safety policies for your employees' safe return to the workplace.

COVID-19 assessments, medical evaluations, and primary care appointments with a dedicated provider through telehealth appointments.

Access and coordination of care through Banner Health's network of high performing providers. A high quality network of providers throughout the state of Arizona.

Banner's Return to Work...Testing Options

- Polymerase Chain Reaction (PCR)
 - Nasopharyngeal Swab
 - Current Gold Standard for Diagnosis of an active COVID Infection
 - A molecular test performed to initiate a chemical reaction that amplifies a gene up to 10 billion-fold
- IgG Antibody Test
 - Blood Draw
 - Indicates past infection or exposure
 - A serology test performed to identify the presence of antibodies which likely provide some level of immunity against COVID infection
